Paul was born in Hong Kong. He came to the States and graduated from Houghton College. After that, he worked on his Master's and Doctorate degrees at UB. During those years he fellowshipped at Randall.

Upon returning to Hong Kong, his vision was to establish Christian schools. He established the New Life School, United Christian College, Schools for Christ Foundation, the Research Institute for Christian Education (RICE), and many other schools. Paul and Margie are currently striving to train schoolteachers in teaching from the Biblical perspective. They hope that these trained teachers will become a force reaching parents and students for Christ. They believe that Chinese people should be reached for the Lord by trained Chinese Christians.

This year, Paul's vision of reaching China is becoming a reality. He was successful in establishing his first school in China. It is a kindergarten that can accommodate 800 children when fully operated. He hopes that schools will be established in every town in China and many parents and students will be led to Christ. This is a spiritual battle. Prayer support is urgently needed.

Pangs have two daughters, both married and living in the U.S. They also have a total of seven grandchildren.

Randall began supporting the Pangs in 1969.

Birthdays:

Paul July 2
Margie September 2
